

**VANDAN STEEL
& ENGG. CO. —**

An ISO 9001 : 2008 Certified Company

Abrex 400

Abrex 400 is through solidified abrasion resistant steel with a regular hardness of 415 BHN. Abrex 400 steels are the most generally utilized of the wear safe evaluations. Abrex 400 shows a fantastic consolidation of high resistance to effect, workability, weld capacity and resistance to abrasion. Abrex 400 has around 3 times the abrasion resistance of normal steel plate and helps drawing out the administration life of mechanical parts.

The utilization of abrasion resistance Abrex steel plate notably diminishes the weight of structural parts presented to serve rough conditions. Contrast and customary steel, Abrex steel plate lessens structural weight and conveys monetary benefits. Appropriation of superior abrasion resistant ABREX will draw out the administration life of apparatus and part. We keep up all the sizes and thickness of Abrex 400 from 05mm ~ 100mm thickness are prepared and accessible in Vandan Steel business stockyards.

Vandan Steel & Engg. co.

359 / 373, Flat -9, 2nd Floor, Minerva Mansion, Svp.

Road, Khetwadi, Giragoan, Mumbai-400 004.

Tel: 022-2389 3665

Email: info@vandansteel.com

Specifications Abrex 400:

- **Size:** 5mm ~ 120 mm
- **Width:** Up to 3000 mm
- **Length:** Up to 12000 mm

Applications:

- Screen Plates - Chute Liners
- Conveyor Buckets
- Cutting Edges
- Ripper Tyne
- Hoppers
- Ore Scrapers
